

Research Application Form

We evaluate research proposals based on the following general criteria:

- The research design and method is sound and will result in data in which there is a high confidence level.
- The research makes an important contribution to the body of knowledge on organizational culture and/or personality theory.
- Is the data sample large enough to support the research?
- Can you demonstrate that the effect being measured is a result of the research intervention and not other random effect?
- What is the likelihood that the research can be published? Where might it be published?
- If your research design and method include the use of other measurement instruments, your proposal should describe these other tools and how well-established they are psychometrically (reliability and validity).

Please fill out the application form with your biographical data, description of the proposed research, attach a copy of your resume or CV, and e-mail these documents to elin@breckenridgeinstitute.com.

- Name
- Title/Position
- Organization
- Address
- City, State
- Zip Code, Postal Code
- Country
- Telephone
- Fax
- E-mail

Professional Credentials or Licenses

Describe the Type of Research

- University Professor
- Doctorate
- Masters
- Corporate
- Other

Please complete the following if you are a student

- Thesis Advisor
- University Your Advisor is Affiliated With
- Address
- City, State
- Zip Code, Postal Code
- Country
- Telephone
- Fax
- E-mail

Which Breckenridge Instrument will you be using, e.g. BTI™, BRI™ etc.

1. Describe your thesis or the research question to be answered:
2. Describe the data sample to be studied:
3. Describe other measures or data to be collected:
4. List your independent and dependent variable (s):
5. List the statistical method(s) and software tool(s) that will be used to analyze the data:
6. What is the size of your sample:
7. What are the dates that you will begin and complete your research?
8. References
